The Democratic Convention on

Tuesday was pronounced by everybody as the largest and most orderly ever held in this district.

Levi J. Burgees the talented young attorney of Hocking Co., has wandered so far away from the Democratic fold that the Republicans at their late caucus taffied him by making him one of the Vice Presidents. A great honor which allows you to sit on the stage among the big guns and look wise.

On Tuesday evening at precisely nine o'clock, three very distinct shocks of an earthquake were felt in this vicinity.

The delegations at the Convention Tuesday were composed of the best men in the district. Columbus never sent out a more respectable and orderly delegation.

Two hundred and fifty persons from Columbus attended the Democratic Convention. Tuesday, also forty from Hocking and forty from Perry.

The Planing Mill at Somerset is working an extra force of hands and have all the work they can do.

The regular session of the Perry County Teacher's Institute, held at Somerset, last week, was one of the most profitable and entertaining in the history of the organization.

The earthquake gave New Lexington the go-by Tuesday evening, but made the pictures quake on the walls at Moxahala and other points in the county.

Samuel Feigley, the man who built the old Court House at New Lexington in 1852, stood by and saw the front wall of the old building pulled down. The walls were tough enough, and stuck together tighter than wax.

The McKeever block on Main Street New Lexington was struck by lightning on Sunday of last week.

Vinton County.

Eleven hundred dollars were raised for the Lancaster & Hamden R. R. at a recent meeting held at Trapaghan school house this county.

About half a dozen slab-sided so-called Prohibitionists met last Saturday and nominated the following ticket.

**South Perry.**

Sep. 1st, 1886.

The wheat crop is now about all thrashed and we have a splendid yield this year. The farmers are all much delighted with the excellency of its quality. The clover seed crop is unusually good, and will soon begin to tumble before the reapers keen sickle. The corn shows fair for an excellent yield.

Messrs Simon Steel and Ben

White were in Logan on business from Saturday until Monday.

Apple butter boiling is the order of days and nights at present.

Prof. John Steel of Laureville is selected to teach the Smoky Hollow school the coming winter.

On August 26th as was announced by the *Democrat*, the South Perry circuit Sunday School celebration took place at Bethany, in a grove. It was an enjoyable day for the children and old folks, in the western part of Hocking county and southern Fairfield and a large portion of Pickaway thrown in. There were four schools represented.

The first in order was to arrange the schools and different choirs was called upon the rostrum alternately to sing. The South Perry choir was first, after which Rev. R. H. Griffith delivered an elegant oration, and then we were dismissed until 1:30 P. M.

At 1:30 P. M. The Buenavista choir opened the exercises after which Rev. J. M. Brashers delivered an oration which will be long remembered. The Bethany choir then sang, lasting until 3 P. M.

At 3:5 P. M. a collection was taken to pay Rev. R. H. Griffith, after which Prof. Chambers delivered a short speech on Sabbath schools, which was very interesting to us. We must say that this celebration was rather stupendous for South Perry and other charges. It far exceeded our most sanguine expectations. Every thing went off smoothly and in good order.

It is now September and schools are opening. What a pleasant (?) thought it is to the youths that they have the privilege of attending schools and to drink freely of the stream of education.

The music loving people will be glad to know that the South Perry string band under the leadership of J. G. W. Seesholtz are perpetually furnishing us with good music.

Rev. T. S. Hass will deliver an oration next Sunday at 3 P. M.

The Smoky Hollow School is now in session under the professorship of Allen J. White of this vicinity.

A great social event occurred at the residence of T. Campbell on last Saturday evening. There were many invited guests present and fun and enjoyment were at high tide; in fact everything went off "as merry as a marriage bell."—*Yes "Toronto was that."* BOX AMT

**The Earthquake.**

The evening of Aug. 31st, is rendered memorable, by one of the most severe earthquakes that has ever visited any part of the U. S. since those of 1865 and 1869, which visited the Pacific coast.

The culminating point of the catastrophe appears to be at or about Charleston, S. C. The principal business portion of the city is destroyed, and fully two thirds of the residences are either wholly or partially wrecked.

Ten distinct shocks occurred between 9:50 P. M. of Aug. 31 and noon of next day. From the latest and most reliable accounts from thirty to forty persons were killed and more than one hundred severely injured.

The vibrations of the shock were felt all over the eastern portion of the U. S. extending from the Gulf to the lakes and westward to the Rocky Mountains.

It is thought that fully three fourths of Charleston will have to be rebuilt before it can be inhabited.

**The National Debt.**

In speaking of the national debt and what the government is doing in reducing it, the *St. Louis Republican* says:

The recent calling in of \$15,000,000 8 per cent. bonds by the secretary of the treasury for payment makes a total of \$29,000,000 bonds called in this year, and shows that the administration is inclined to follow the policy of the Morrison resolution, even though that resolution failed to become a rule on the secretary. The bonds called for payment are 3 per cents, payable at the pleasure of the government. There are \$170,000,000 of these outstanding and the surplus in the treasury will be devoted to the payment of them till the whole sum shall have been extinguished. After them come the 4 1/2 per cent. bonds (250,000,000) which are not redeemable till five years from September; after them the \$64,623,000 issued to the Pacific railroad, which fall due nine to thirteen years from this time; after them the \$737,719,000 4 per cents, which do not fall due till after twenty-one years; and after these the \$14,000,000 navy pension fund 3 per cent. bonds. All together these several classes make up a debt of about \$1,236,000,000. The highest limit the bonded debt ever reached was \$2,381,000,000 in 1865. More than \$1,000,000,000 of it has been paid, therefore, in twenty-one years.

**The Re-Union.**

As we write this (Wednesday) morning, the old boys of the 18th, 114th and other regiments are coming in, and handshaking is vigorously going on. The prospect for a large crowd and a pleasant time is excellent. Major Wes. McLain, reported dead a year ago, is here, but blind; yet he can beat the drum as of old, and the 18th boys are highly pleased to see him.

We shall not be able to make further mention of the re-union in this issue.—*McArthur Democrat Enquirer*.
